China Radiation Technology Conference

2019 China (Shanghai) International Nuclear and Radiographic Medical Technology Exhibition

November 12-14, 2019 Shanghai New International Expo Center

1. 2019 CRT Series Forum

1 Main Forum

China Radiation Technology Conference (focusing on domestic and foreign industry regulations, industry trends, big data, etc.)

6 Parallel Forums

Nuclear medicine and molecular imaging

X-ray diagnosis

Radiation oncology

Interventional radiology

Medical imaging AI system

Medical radiation protection

2. Three Concurrent Exhibitions in 2019 CRT

Nuclear and Radiographic Medical Technology Exhibition

Radiation Protection Technology and facilities Exhibition

3. Exhibition Overview

The "2019 China (Shanghai) International Nuclear and Radiographic Medical Technology Exhibition" will be held at Shanghai New International Expo Center from November 12 to 14, 2019, focus on displaying new technologies, new equipment and new experiences of theory and practice in nuclear medicine and radiological medicine worldwide. And it has the objective to promote the development of international nuclear medicine and radiological imaging medicine, facilitate exchanges and cooperation between colleagues in nuclear medicine and radiological imaging medicine, and build a high-level technology and market exchange platform.

The exhibition covers the main fields of experimental nuclear medicine, clinical nuclear medicine, radiobiology, clinical radiation medicine, radiation dose, injury and protection, radiolabeled drugs, molecular biological technology, radiation and safety and related supporting services, so as to serve the development of radiation medicine application industry in a more comprehensive and in-depth way.

4. Exhibition Scope:

- **Frontier science and technology:** scientific research institutes, universities, government agencies, hospitals, radiotherapy bases and radiotherapy centers (new achievements and technologies in radiotherapy technology);

China Radiation Technology Conference

2019 China (Shanghai) International Nuclear and Radiographic Medical Technology Exhibition

November 12-14, 2019 Shanghai New International Expo Center

- **Nuclear medical imaging equipment:** PET/MRI, PET/CT, SPECT/CT, AI and accelerator, SPECT accurate quantitative, SiPM technology, PET, SPECT, Gamma camera, etc.;
- **Medical diagnostic X-ray devices:** X-ray photography devices, CT machines for medical imaging, X-ray devices for angiography, X-ray blood irradiator, DSA, DR, CR, etc.;
- **Radiotherapy equipment:** medical linear accelerator, radiotherapy simulator, microwave therapy apparatus, afterloading therapy apparatus, X-ray therapy apparatus (deep and shallow), intraoperative radiotherapy device, cobalt-60 teletherapy system, cryosurgery, medical proton accelerator, medical heavy ion accelerator, boron neutron capture therapy, interventional radiotherapy equipment, etc.;
- **Medical imaging AI:** AI cloud platform construction, hospital union intelligent imaging center, accurate cloud radiotherapy diagnosis system, digital intelligent film, intelligent diagnostic and screening system, tiered diagnosis/hospital union solution, hospital-specific cloud solution, intelligent medical data management system, clinical nursing data interaction center and medical cloud follow-up system;
- **Nuclear medicine:** radiopharmaceuticals and labeled compounds, medical radionuclides, tumor targeted drugs, new radioprotective drugs, adjuvant drugs for radiotherapy, therapeutic drugs for radiation sickness, etc.;
- **Related supporting facilities:** radionuclide preparation (medical electron cyclotron, nuclide packing equipment); in vitro analysis and testing, experimental nuclear medicine instruments, radiation dose testing, medical robots, radioactive molecular probes, medical displays, medical films, equipment accessories, third-party installation and maintenance services, radiation drug management systems, medical financing lease, etc.;
- **Medical radiation protection:** basic protection and overall shielding of machine rooms, medical radiation protection products, radiation monitoring instruments, radiation visualization systems, and third-party radiation detection service institutions;

Top enterprises in the civil nuclear technology industry were invited as our exhibitors:

China Radiation Technology Conference

2019 China (Shanghai) International Nuclear and Radiographic Medical Technology Exhibition

November 12-14, 2019 Shanghai New International Expo Center

5. Exhibition Expenses:

- **Standard booth:**

USD 5000/9m²

- **Raw space: (Rental from 36m²)**

USD 500/m²

- **Special fees for standard booth: Double opening + 10%**

Note:

All exhibits in the exhibition must conform to the regulations of the State Nuclear Safety Administration, the State Food and Drug Administration or relevant government agencies, and the exhibits exclude radionuclide objects.

a. Standard booth: to be rented from 9m², one information desk, two chairs, one fascia board in Chinese and English, one 220V power socket, two spotlights or fluorescent lamps, and covered with carpets.

b. Raw space: to be rented from 36m², without any equipment. In addition, construction management fees must be paid to the exhibition hall and electricity box fees must be paid to the designated builders.

c. Both standard booth and raw space include organizing users to visit and negotiate, publishing the company's brief introduction free of charge on the exhibition catalogue, cleaning public venues, and providing security, public liability insurance and other services.

6. Exhibition Procedures:

- After confirming the participation, confirm the booth from the organization unit and ask for the application form, fill in and seal it and fax it to the organization unit;
- Please wire the exhibition fees to the organization unit within one week after applying for the booth. If there is any balance, please pay it before October 10, 2019;
- Principle of booth sequence allocation: "Applying first, paying first, arranging first"
- After receiving the booth fees, the organization unit will send the *Exhibition Manual* one month before the exhibition starts;

7. Contact us:

Shanghai Tiansheng Exhibition Service Co., Ltd.

Address: Room 1005, No. 1221 Husong Highway, Shanghai
